For vendors, Pixalink staff, and sales teams.

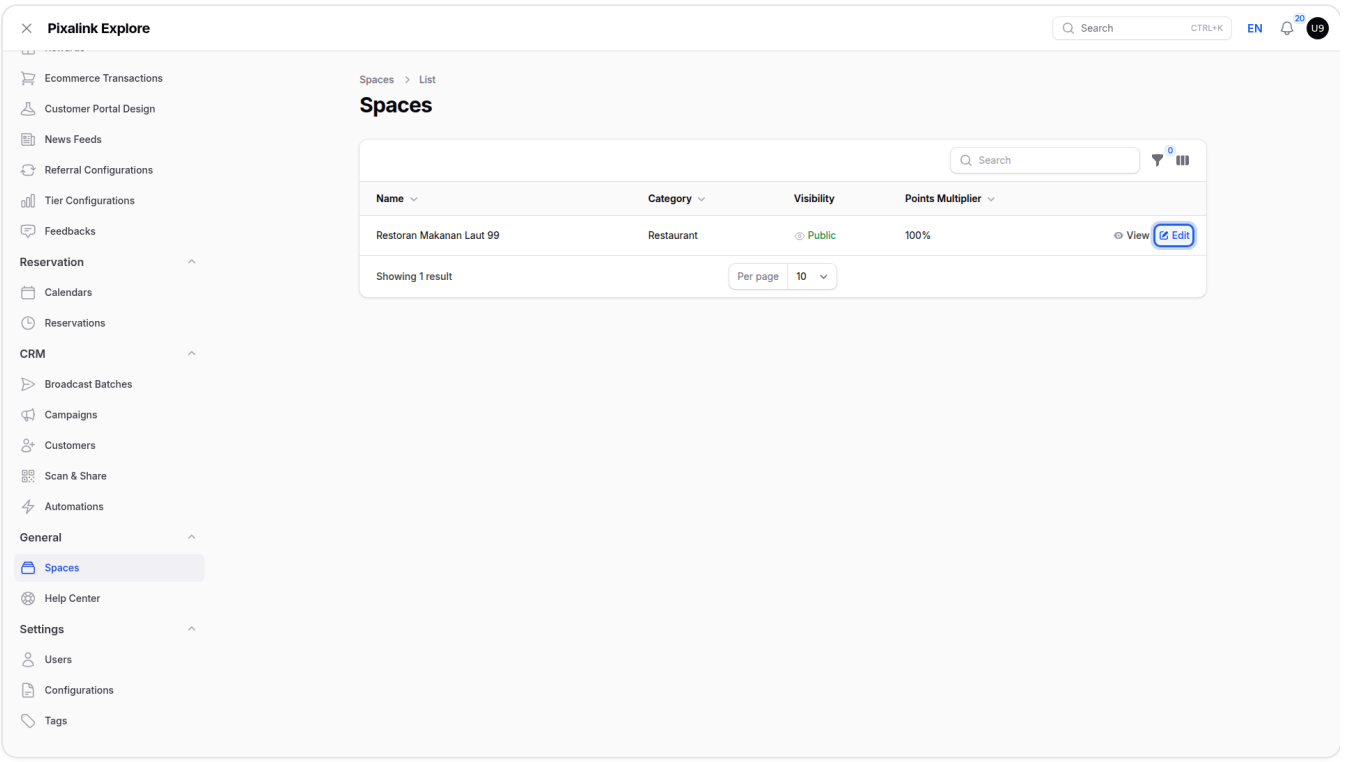

Shopify Store Credit lets customers convert their Pixalink credit wallet balance into native Shopify store credit, which they can spend at checkout on your Shopify store.

Prerequisite

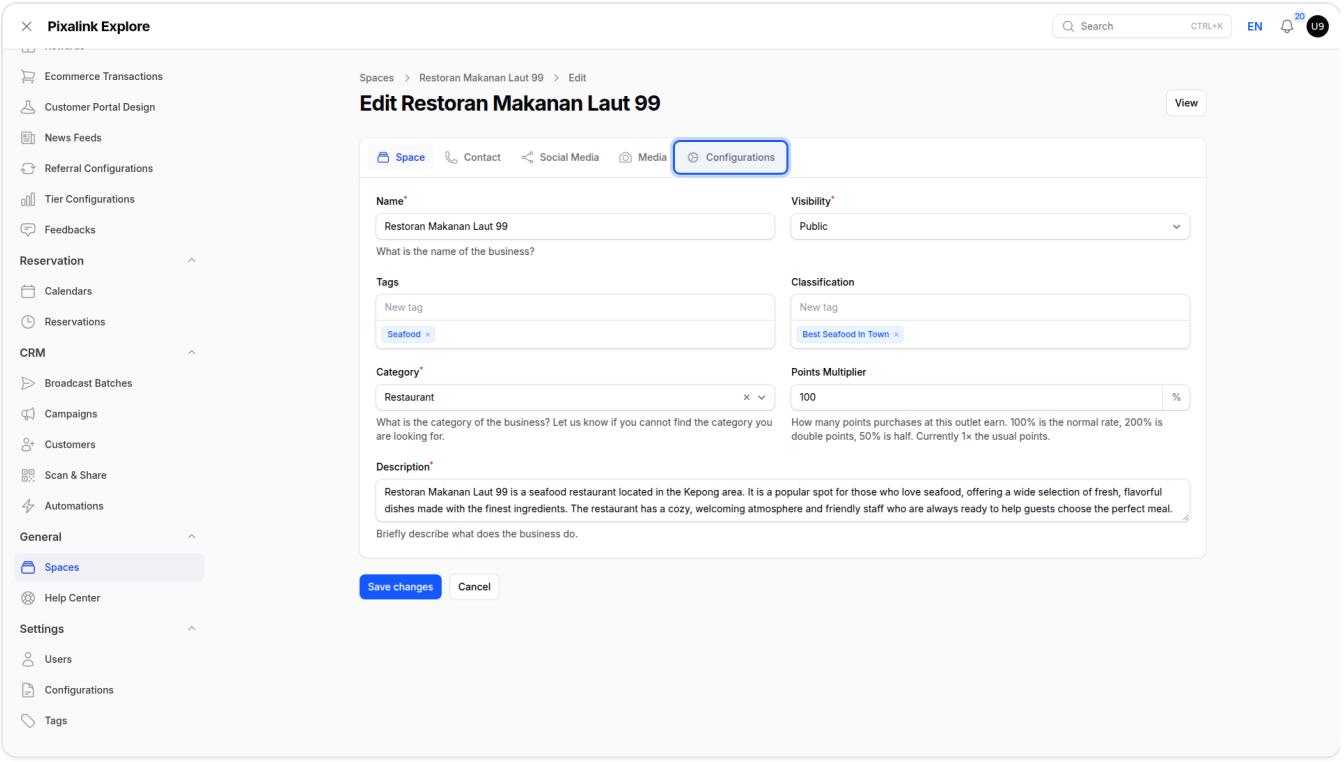

The outlet must already be connected to Shopify through OAuth.

Activate the feature

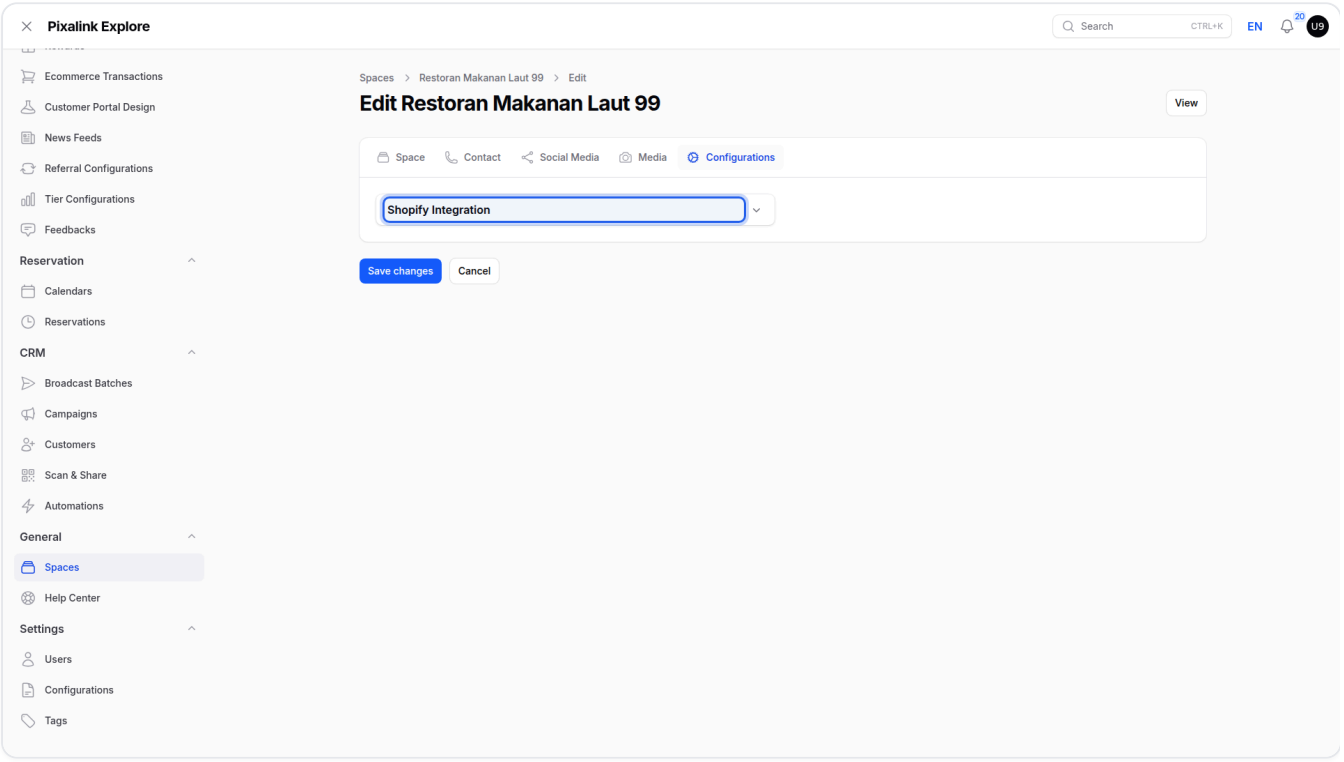

1. Open **Spaces** and click **Edit** on the outlet connected to your Shopify store.

2. Open the **Configurations** tab.

3. Expand **Shopify Integration**.

4. Under **Feature Settings**, switch on **Enable Shopify Store Credit**.

5. Click **Save changes**.

To convert new credit top-ups automatically, you can also enable **Auto-convert Top-ups to Shopify Wallet**.
